

MECHANICALS LOCATIONS

At Main Street Renewal we are committed to helping you make the ongoing maintenance of your home as easy as possible. Below is a list of items that you will need to know the location of, in order to maintain properly, troubleshoot and in case emergency.

Item	Location / Size/notes	Used For
HVAC Returns		Filters must be changed every 30-60 days in order to keep the HVAC running properly.
Size of filters		
GFI Outlets		If electricity goes out to a plug in your home, your GFI might have tripped and need to be reset. Often this can affect multiple plugs sometimes even across separate rooms. These are usually located in wet areas such as bathrooms and kitchens.
Breaker Box		If electricity goes out to a specific room or rooms, including lights, the breaker might have tripped and need reset. Turn fully Off and back to On position.
Main Water Shut Off		If there is a leak that can't be controlled by shutting off the local valve under the sinks or toilet. May need to use pliers to operate if in exterior box.
Other
